Please note the technical data of the products!

Article Numbers: 134731, 134730, 134729

Safety Instructions:

- Attention: The IBC station is suitable for liquids that are hazardous to water, therefore all safety regulations must be strictly observed.
- The maximum load of 2000 kg must not be exceeded in order to avoid structural damage.
- Avoid direct sunlight and aggressive chemicals to ensure the integrity of the polythene.
- To prevent liquids from leaking, ensure that the IBC station is always placed on a stable surface and check for wear and damage before use.
- Before transporting with a forklift truck or pallet truck, ensure that the station is properly secured and that there is sufficient space and correct handling.
- Wear protective clothing and gloves to avoid skin contact with potentially hazardous liquids and use appropriate personal protective equipment.
- Carry out regular checks for possible damage or leaks.
- Ensure a stable base for storage.
- Follow instructions for safe handling and disposal.
- Observe protective measures for internal transport.
