Article Numbers: 157136, 157135, 157134

Safety Instructions:

- Use the product with suitable safety devices to prevent injury from opening the doors and secure the doors to prevent unauthorised access.
- Load the shelves evenly and avoid excessive forces to prevent tipping and overloading. Observe the maximum load of 75 kg per shelf.
- Ensure that the cabinet is placed on a stable surface to minimise the risk of it tipping over when heavily loaded.
- Avoid using the cupboard as a ladder or climbing aid, as this can lead to injuries.
- Keep the cabinet away from water sources to prevent damage to the material, as stainless steel is corrosion-resistant but not corrosion-free.
- Suitable for commercial use only.
- Be aware of the risk of breakage when handling the acrylic glass.
- Ensure that the doors of the cabinet are properly closed to prevent injuries caused by crushing or slipping.
- The display cabinet is not suitable for storing food. Avoid confusion with foodstuffs.
- Keep tools and materials out of the reach of children to minimise the risk of injury.
- Do not operate or use under the influence of drugs or alcohol.
