Safety Instructions:

- The cabinet must be placed on a stable and level surface to prevent it from tipping over.
- The hinged doors should not be opened or closed with excessive force.
- Household cleaners and disinfectants should be used in accordance with the manufacturer's instructions in order not to damage the material and to avoid chemical reactions.
- Accessible parts such as locks should be protected from children and the cylinder lock should be used to ensure protection against unauthorised access.
- Ensure that small parts, such as keys, are kept out of the reach of children.
- During use, ensure that the cabinet is not overloaded to avoid structural damage.
- Watch out for sharp edges during assembly or use.
- Securely positioned thanks to the four stable feet.
