Safety Instructions:

- The product must be installed correctly in accordance with the installation guidelines to ensure safe use.
- Check the stability of the bracket regularly, especially after installation or when changing the weight of the monitor.
- Observe the maximum load capacity of 12 kg to avoid accidents or damage.
- Make sure that all connections and cable guides are securely routed to avoid tripping hazards.
- Do not use the bracket if it is visibly damaged and contact the manufacturer if this is the case.
