Safety Instructions:

- Do not exceed the maximum load capacity (300 kg).
- Use the transport trolley on a level surface.
- Ensure that the driving surface is free of obstacles to avoid accidents.
- Keep children away from the appliance to avoid injury.
- Pay attention to the stability of the transported goods during use.
- Regularly check the swivel castors for wear.
- Do not push the transport trolley over uneven surfaces to avoid damage.
- Avoid transport over steep ramps or stairs.
- Do not use at extreme temperatures or with chemicals.
- Ensure that the transported materials are positioned stably on the cargo bed.
- Suitable for use on smooth, solid surfaces.
- Do not drive at excessive speed to avoid accidents.
- The wheelchair accessible height of 125 mm ensures that the scooter can be used properly.
- Make sure that the surface is level and stable to ensure stability.
- Users should never overload the scooter or use it improperly to avoid accidents.
