Article Numbers: 138829, 138828, 138827, 138826, 138825

Safety Instructions:

- Maximum load per compartment: 2 to 5 kg to avoid overloading and accidents.
- Safety warning: If used incorrectly, the trolley could tip or fall over, which could result in injury.
- Product is intended for use by adults, not suitable for children as small parts could pose a choking hazard.
- Before use, ensure stable storage conditions to guarantee safety during use.
- Heavy parts must be stored safely to prevent the trolley from tipping over.
- When using in the vicinity of sensitive materials, pay attention to possible damage.
- To avoid injury, move the trolley on a level surface during transport.
- Use only for the intended purpose to minimise safety risks.
- The trolley can slip on smooth surfaces, so drive carefully.
- Heavy objects should be evenly distributed to ensure stability.
- Avoid children playing with the structural element as it is a commercial product.
- Regularly check the stability and integrity of the trolley to prevent accidents.
- Follow the safety instructions for using the product and the open-fronted storage bins.
