Safety Instructions:

- Observe the maximum user weight of 150 kg to avoid structural damage and injuries.
- Protect the height-adjustable safety gas spring from excessive pressure and check that it is working properly to prevent sudden lowering.
- Select castors (hard or soft) according to the floor covering to ensure mobility and prevent floor damage.
- Adjust the seat height between 400 and 520 mm to ensure optimum ergonomics and prevent injuries.
- Use the swivel chair in accordance with the operating instructions to avoid the risk of injury.
- Use the chair on a stable, level surface to prevent it from tipping or falling over.
- Check the product regularly for damage and wear, especially safety mechanisms and castors, to prevent accidents.
- Do not use the synchronised mechanism improperly to prevent injuries.
- Do not allow children to play on the chair unsupervised.
- Keep the castors and mechanisms clean to ensure safety.
- Adjust the ergonomics of the chair to suit the user in order to minimise health risks.
- Ensure proper assembly and adjustment of the swivel chair to avoid the risk of injury.
- Do not allow more than one person to use the swivel chair at the same time so as not to exceed the load capacity of 150 kg.
- Ensure that all safety mechanisms such as the point synchronisation mechanism are set correctly.
- Correct use of the height-adjustable seat according to the manufacturer's instructions.
