Safety Instructions:

- Make sure that sharp and pointed objects are disposed of properly when using the recyclables collector to avoid injury.
- Regularly check the stability and condition of the recyclables collector to avoid the risk of it tipping over or breaking.
- Keep the recyclables collector in a safe place to reduce the likelihood of it being used improperly by children or vulnerable people.
- Only use suitable bin liners that are designed for the capacity of the recyclables collector to avoid overfilling and waste falling out.
- Follow the instructions for tool-free assembly to ensure that the recyclables collector is correctly assembled and that no parts are missing.
- Make sure that the recyclables collector is not overloaded during use to avoid material fatigue and possible damage.
