Safety Instructions:

- Make sure that the cabinet is stable to prevent it from tipping over. Always use the levelling feet supplied for this purpose.
- Observe the maximum permissible static load capacity of 7,500 N to avoid damage.
- The cabinet is not suitable for outdoor use (protection class IP20); protect it from moisture and dust.
- Take care when lifting: The cabinet can be lifted by crane and requires suitable lifting equipment.
- Careful handling when installing server components to avoid injury.
- Take appropriate precautions against electric current when working inside the cabinet.
- Avoid direct contact with sharp edges and sheet steel surfaces to prevent injury.
- Keep the cabinet away from children to prevent improper use.
