Safety Instructions:

- Choking hazard due to small parts, especially if used incorrectly or lost.
- Risk of electric shock due to improper use of electrical components.
- Avoid use on uneven or slippery floors due to the risk of slipping.
- The product should only be used by persons who can operate the height adjusters.
- Regular inspection of mechanical parts and settings to ensure functionality and safety.
- Ensure that the chair shows no visible signs of damage or wear before it is used.
- Safety instructions must be available in an understandable language.
- Proper use of the work chair to avoid injuries due to improper handling.
- The product should contain clear instructions on how to set the height adjustment and back pressure correctly.
- Users weighing over 125 kg should avoid overloading the chair.
- Ensure the availability and use of ESD protection in electrostatically sensitive areas.
- ESD conductivity must be checked regularly.
- Not suitable for children under 12 years of age.
- Chair suitable for users weighing between 50 and 125 kg.
- If the chair is damaged or worn, remove it from use and dispose of it if necessary.
- Risk of injury if used incorrectly, especially with high backrests.
- Observe the safety instructions for use on acoustic workstations.
