

Product Safety Information

Bench scale Cruiser (CKT), various versions. Versions, weighing ranges 4 to 48 kg, with/without calibration

Manufacturer/Responsible Person: AE Adam GmbH, Instenkamp 4, 24242 Felde, Deutschland
E-Mail: info@aeadam.de

Please note the technical data of the products!

Article Numbers: 157306, 157305, 157304, 157303, 157297, 157296, 157295, 157294, 157293

Safety Instructions:

- Do not overload: Do not exceed a maximum load capacity of 48 kg; also observe 8 kg and 4 kg variants to avoid damage.
- Use only for the intended purpose to prevent damage.
- Only use the scales on stable and level surfaces to avoid tipping and inaccurate measurements.
- Do not use in damp or wet environments to protect the electronics and functionality.
- Only calibrate and operate in accordance with the manufacturer's instructions to ensure correct measurement results.
- Avoid contact with liquids as there is a risk of short circuit.
- Check the scales regularly for cleanliness and functionality.
- Avoid strong vibrations or shocks to ensure accurate measurement results.
- Only use suitable weighing units (e.g. g, kg, lb, oz).
- Read the operating instructions carefully before using the appliance for the first time.
- Keep the scales out of the reach of children; not suitable for children under 3 years of age due to small parts.
- Do not have the scales repaired without authorisation; if problems occur, call in qualified personnel.
- Avoid contact with sharp objects on the weighing plate to prevent damage.
- Prevent operation in extreme temperatures or strong sunlight so as not to impair the function.
- Not suitable for outdoor use.
- Only use within the intended temperature range (operating range).
- Do not operate the scale in the vicinity of magnetic fields or electronic devices to avoid interference.
- Observe protective measures when using electrical accessories.
