Safety Instructions:

- Only use the standing desk on stable, level surfaces to avoid the risk of falling.
- When using the standing desk, make sure that the shelves are not overloaded to ensure stability.
- The edges and corners of the desk are designed to minimise the risk of injury from knocks. Not suitable for children, risk of injury from edges and corners.
- Observe protection against mechanical damage, especially during assembly and disassembly. There is a risk of accidents in the event of incorrect installation.
- The product should be assembled and used by adults to avoid improper handling.
- The product is safe to use when used in accordance with the manufacturer's instructions.
- The stability of the standing desk should be checked regularly to ensure that it remains stable on uneven surfaces.
- The product should be protected from moisture and extreme temperatures to prevent damage to the chipboard.
- The melamine resin coating makes the surface scratch-resistant, but sharp objects should be avoided to prevent damage.
- Make sure that the top plate is mounted at a suitable angle to ensure comfortable use.
- Ensure that there are no sharp edges or protruding parts that could cause injury.
- Warnings regarding correct installation and use must be observed. Make sure that all installation instructions are followed correctly to ensure safety.
- Avoid lifting or moving the desk if there is heavy material on it.
- Keep the workplace around the desk free of tripping hazards and clutter.
- Please do not use the console for purposes for which it is not designed.
