Safety Instructions:

- Protect the product from moisture and direct heat to prevent corrosion.
- Ensure that the cabinet is standing on a stable and level surface to prevent it from tipping over.
- Regularly check locks, hinges and cupboard doors for functionality and damage to ensure security.
- Observe the maximum weight load to avoid overloading and tipping over.
- Keep keys safe, especially out of the reach of children, to prevent unauthorised access.
- Mount cabinets neatly and stably to ensure stability.
- Contact the manufacturer in the event of damage or malfunctions.
- Keep compartments closed when not in use to prevent theft and accidents.
- Do not use aggressive cleaning agents to avoid damaging the surface coating.
- Pay attention to sharp edges and handle with care to avoid injury.
- Keep the product out of the reach of children and use it under supervision, as it does not have any childproof functions.
- Use only non-explosive or flammable materials suitable for household use.
- Do not block ventilation openings to prevent mould growth.
