Safety Instructions:

- Before using the product, carefully observe the assembly instructions and follow the assembly instructions to ensure stability and safety.
- The chair should be checked regularly for stability and wear.
- Avoid sitting on the armrest to prevent damage.
- The chair is designed for a maximum load of 120 kg. Do not exceed the recommended maximum weight during use to avoid structural damage and possible injury.
- Keep the chair away from direct heat and sharp objects to prevent damage to the cover.
- Caution: Due to the upholstery and materials, there could be a choking risk for small children. The armchair is not a toy.
- Disassembled shipping: Be sure to assemble the product carefully to avoid injury.
- The materials used are suitable for indoor use. Protect from direct sunlight and moisture.
- Choking hazard due to loose parts or packaging material.
- Risk of slipping due to insufficient grip on smooth surfaces.
