Safety Instructions:

- Adjust the seat height and use the safety lift according to the instructions
- Carry out regular maintenance of the chair to ensure safety
- Do not load the chair above the specified maximum load (125 kg)
- If the product is modified (e.g. by other parts), a new safety assessment is required.
- Carefully check units that contribute to safety (e.g. fault-free braking system of the castors)
- Contact the manufacturer immediately in the event of complaints or safety problems
- Ensure that the armrests are used correctly to avoid overloading
