

Product Safety Information

Disposal container, stainless steel, self-closing lid and foot pedal, various sizes. Sizes

Manufacturer/Responsible Person: asecos GmbH, Weiherfeldsiedlung 16-18, 63584 Gründau, Deutschland

E-Mail: info@asecos.com

Please note the technical data of the products!

Article Numbers: 138956, 138934, 138933

Safety Instructions:

- Ensure that the container is standing on a stable, level surface.
- Before use, ensure that the container is suitable for solvent-containing waste; only fill with solvent-containing waste to avoid overfilling and risk of ignition.
- Empty the container regularly and do not overfill to ensure that the lid closes securely and to prevent overflow or leakage.
- Close the self-closing lid again after opening and allow it to function properly to minimise the risk of ignition. The self-closing lid reduces the risk of sparks and fire.
- Do not block the ventilation openings on the floor and check them regularly to prevent spontaneous combustion and to guarantee a safe exchange of air.
- Do not place near open flames or hot surfaces; avoid sparks near the container to minimise the risk of ignition.
- Wear protective clothing and gloves when handling waste and use the foot pedal mechanism to open to minimise direct contact with potentially hazardous vapours.
- Regularly check for damage to the container to prevent liquids from leaking.
- Use only for its intended purpose; do not store food or hazardous chemicals.
- Material is not designed for use with temperature-sensitive waste; please contact us if you are unsure.
- Attach safety notices and instructions in understandable language for safe use and disposal.
