Please note the technical data of the products!

Article Numbers: 138971, 138970, 138968, 138967

Safety Instructions:

- Suitable for the safe storage of liquids hazardous to water. Only use for the storage of liquids hazardous to water.
- There is a risk of fire and explosion due to leaking containers. Ensure that the depot is placed on a stable and level surface. Floor anchoring recommended for additional stability. Do not place the product near heat sources or ignition sources to avoid the risk of fire.
- Only use under the supervision of trained personnel.
- Ensure adequate ventilation in the vicinity of the depot.
- Regular maintenance and leakage checks are required. Regularly check the depot for cracks or leaks. Carry out regular inspections for damage or leaks.
- The depot must be placed on a stable and level surface to prevent it from falling over or slipping. Check the depot regularly for correct anchoring to prevent it from tipping over.
- Safety data sheets for the stored substances must be kept available.
- Not suitable for food or food packaging.
- Before use, ensure that all liquids are properly sealed.
- Wear protective clothing when in contact with chemical substances. Wear suitable protective equipment when filling the depot with hazardous chemicals. Wear suitable personal protective equipment (PPE) when handling chemicals.
- Always follow the manufacturer's instructions for safe handling and storage before use.
- Store in a cool, dry place away from direct sunlight to avoid damaging the material. Protect from direct sunlight to prevent damage to the material.
- Risk of suffocation due to improper handling, especially when lifting or storing.
