Safety Instructions:

- Maximum body weight: Do not exceed 120 kg to avoid overloading and damage.
- Ensure a stable and level surface to prevent the appliance from tipping over.
- Regularly check the mechanical functionality, especially the height adjustment and synchronised mechanism.
- Keep away from naked flames and hot surfaces.
- Care according to the instructions for durability of the materials; use only suitable cleaning agents.
- Adjust backrest and seat height to individual body height for optimum ergonomics.
- Recommended sitting time: Maximum 8 hours to avoid back problems.
- Ensure that the chair is correctly adjusted for the body weight.
- Use only on suitable floors; castors with load-dependent brakes suitable for carpet and hard floors.
- Assemble all parts properly to prevent injuries.
- Regularly check the functionality of the adjustable parts.
- Keep children and pets away from moving parts.
