Article Numbers: 146876, 146875, 146874, 146873, 146872, 146871, 146870, 146869, 146868, 146867

Safety Instructions:

- Ensure that the height of the chair is correctly adjusted to avoid back problems.
- Maximum load: do not exceed 120 kg; only suitable for persons between 45 and 120 kg.
- Recommended sitting time: maximum 8 hours; take regular breaks to minimise fatigue and health risks.
- Check the chair regularly for loose or damaged parts, including screws, to ensure safety.
- Follow the instructions for height adjustment to avoid injury from crushing.
- The safety double castors are only safe on suitable floors and with the correct weight load up to 120 kg; take care when using on smooth floors.
- Do not use the chair in areas with moisture or high temperatures.
- Ensure that the backrest is correctly positioned and adjusted to make optimum use of the lumbar support.
- Children should be supervised and should not play with the office chair.
- Clean the fabric cover regularly with an upholstery nozzle to avoid dust and allergens.
- The armrests are adjustable in height and width; correct adjustment can reduce tension in the neck and shoulder area.
- Adjust the seat depth individually; use this function to prevent back and leg pain.
- Make sure that the chair is placed on a stable, level floor to prevent it from tipping over and sliding.
- Be careful when using a safety lift for height adjustment to avoid crushing injuries or falls.
- Maintain the chair regularly and clean and inspect the fabric and mechanical parts in accordance with the manufacturer's instructions.
- Keep small objects and liquids away from moving parts to avoid malfunctions.
