Safety Instructions:

- Intended for commercial use only. Not suitable for home use.
- Chairs should be placed on a stable, level surface to prevent them from wobbling or tipping over.
- Avoid stacking more than 4 chairs to minimise stability risks and the risk of falling.
- Take care when handling the chair, as sharp edges on the steel tubes can cause injuries.
- The chair is not suitable for children under 3 years of age as there is a choking hazard due to small parts and it may be appealing to children.
- The chair is not designed for people with special needs.
- Avoid overloading and applying excessive force to the backrest to prevent damage.
- The materials are flame-retardant, but open flames should be kept away.
- The chair does not contain any elements that ensure that it can be used by children, so its use by children is not recommended.
- The upholstery and cover should be checked regularly for tears or other damage.
- The chair should not be placed near heat sources as materials may be damaged.
- Ensure that the armrests are securely fastened to prevent injuries.
- Regularly check for weaknesses or damage to the chair to minimise safety risks.
- Include instructions for safe use, especially when using as a stacking chair.
