Safety Instructions:

- Ensure that the chair is placed on a stable and level surface to prevent it from tipping over and causing injury.
- Do not exceed the maximum stacking limit of 5 chairs; be aware of the risk of slipping and suffocation when stacking.
- Avoid contact with hot or naked flames, as materials are flame-retardant but not fireproof.
- Ensure stable assembly and only use the chair in accordance with the assembly instructions to avoid injuries caused by improper use.
- Be aware of the risk of suffocation due to small parts and loose parts, especially if not assembled correctly.
- Avoid rust formation on the steel frame through use in damp environments.
- Not suitable for children, limit use to adults and older children.
- Avoid loading the chair beyond the recommended load capacity to prevent damage or injury.
- Regularly check the stability and safety of the chair, especially after prolonged use.
- Do not use armrests as grab rails; make sure that they are securely mounted.
- Avoid moving the chair abruptly or with excessive force.
