

Product Safety Information

Oil barriers, versch. Capacity and diameter, PP-fibre, white

Manufacturer/Responsible Person: Patreco GmbH, Schloßstrasse 38, 40477 Düsseldorf, Deutschland

E-Mail: info@patreco.de

Please note the technical data of the products!

Article Numbers: 137700, 137699, 137698, 137697, 137696, 137695, 137694

Safety Instructions:

- Not suitable for use in water areas with endangered species.
- Suitable protective measures must be taken in the event of contact with liquids containing oil or petrol.
- Oil booms are not suitable as toys and should be kept away from children.
- Application should be in accordance with local regulations on water and environmental pollution.
- Disposal should be carried out in accordance with the applicable regulations for the disposal of hazardous waste.
- Ensure that the oil barriers do not come into contact with aggressive chemicals or highly oxidising substances.
- Take care to avoid overloading the oil barriers, which could lead to failure.
- Oil booms should be used with caution in waters with strong currents, high waves or strong winds, as their effectiveness may be impaired.
- Clean and store oil booms properly after use to prolong their service life and prevent environmental pollution.
- Avoid contact with sharp or pointed objects that could damage the oil barriers.
- Behave carefully near bodies of water to prevent pollutants from escaping.
- Ensure that the oil booms are in good condition before using them.
- Avoid contact with skin and eyes when handling the oil barriers.
- Store the oil booms in a dry, well-ventilated place, away from chemical substances, strong sunlight and extreme temperatures.
- The use of oil booms is at your own risk; check the local regulations on the handling of environmentally harmful substances.
- Only intended for use with liquids containing oil. Do not use for other applications, especially not in drinking water.
- In case of contact with natural waters, report immediately to the nearest environmental authority.
- Use only in compliance with the relevant environmental and safety regulations.
- Beware of residues of hazardous substances during use.
- Suitable for use in water, but danger due to improper use.
- Be aware of the risk of slipping when using in paved areas.
- Do not bring into contact with strongly oxidising substances.
