Article Numbers: 138962, 138961, 138960, 138959, 138958

Safety Instructions:

- Use suitable personal protective equipment when handling chemicals to minimise risks.
- Shelf tray is not suitable for storing flammable substances.
- Observe a ground clearance of 100 mm to avoid collisions during transport.
- Regularly check for cracks, wear and leaks to ensure safety and functionality.
- Only use the shelf tray with water-polluting substances and position it securely underneath hazardous goods containers to prevent them from tipping over.
- Safe handling of trays that can be driven under with forklift trucks or pallet truck drivers is required.
- Keep the product out of the reach of children.
- Shelf tray is intended for commercial use only; not for private use.
- The shelf tray must not be used with materials that could impair its chemical resistance.
- Keep the tray free of deposits that could impair its function.
- Do not fill above the permissible fill level to facilitate rapid disposal in the event of leaks.
- When disposing of hazardous substances, observe the applicable legal regulations on waste disposal.
- Observe safe installation and use in accordance with the manufacturer's instructions.
