Safety Instructions:

- Ensure that the cabinet is correctly and stably attached to the wall to prevent it from tipping over.
- Use the cylinder lock to secure the cabinet contents and always keep the door locked to prevent unauthorised access.
- The load capacity of the top shelves must not exceed 30 kg to prevent overloading and damage.
- The cabinet is intended for indoor use and should not be used outdoors.
- The cabinet is not intended for use by children and warnings should be given about the danger of improper use.
- Avoid storing hazardous chemicals in the cabinet without special requirements.
- During disposal, ensure that no harmful materials are contaminated.
- Sharp or pointed objects should not be handled directly in order to avoid injury.
- Take care when opening the door to avoid the risk of crushing.
- Do not load prepared attics beyond their maximum load-bearing capacity in order to avoid the risk of collapse.
- Only use the keys provided to lock the cabinet.
- The general instructions for use and safety instructions should be provided in an understandable language.
