Safety Instructions:

- Avoid sharp edges and corners to prevent injuries.
- Ensure that all doors and compartments are properly closed to avoid injury.
- During assembly, ensure that all parts are firmly tightened to avoid hazards.
- Only use the locker in accordance with the manufacturer's instructions in order to avoid hazards.
- Make sure that the locker is placed on a level and stable surface to prevent it from tipping over.
- Regularly check the stability, fastenings and levelling to prevent tipping.
- Do not overload the locker to avoid structural and stability problems.
- Watch out for children who might use the cupboard as a toy, especially without supervision.
- Keep small parts away from children to avoid the risk of choking.
- Secure the locker to the wall, especially in areas with lots of children, to prevent it from tipping over.
- Install according to the instructions using the screws and plugs supplied.
- Do not use aggressive cleaning agents to avoid damaging the coating.
- Avoid using the spindle in damp conditions to prevent corrosion of the steel structure.
- Regularly check the locks and key order to prevent unauthorised access.
- Do not use the locker as a ladder or for support.
- Check the locker for damage before use.
