Safety Instructions:

- Ensure that the locker is placed on a stable, level surface to prevent it from tipping or swaying.
- Avoid overloading the compartments and shelves to prevent breakages, structural damage or injuries caused by falling objects.
- The use of the appropriate key or code for the lock mechanism or security turnbolt/cylinder locks to prevent unauthorised access and theft.
- Ensure that the doors are properly closed and that the door stop dampers are intact to avoid the risk of crushing or injury.
- Regularly check and precisely adjust the levelling of the feet to ensure stability and balance and to avoid the risk of falling.
- The product is heavy; ensure safe handling to avoid injury from lifting.
- Keep the product away from moisture and extreme temperatures to avoid rust formation, corrosion damage and coating problems.
- Make sure that the cabinet is securely fastened to the wall to prevent it from tipping over.
- Not suitable for children under 3 years of age due to choking hazard from small parts and risk of injury from sharp edges or clamps.
- Warning: Use only for the intended purpose. Improper use may result in injury.
- Beware of sharp edges or corners; check before use and handle with care to avoid injury.
- Regular inspection of the structure and maintenance of the doors and locks to minimise blockage and damage-related safety risks.
- Follow the manufacturer's instructions during assembly and check that all parts are complete and undamaged.
