Safety Instructions:

- For all locks: misuse and improper use can lead to injury. Use under supervision recommended.
- Observe the maximum load capacity to avoid tipping over or collapsing. Do not store heavy or overweight objects.
- The locks and locker should be used in accordance with the manufacturer's instructions to prevent injury and damage.
- Location: The locker should be placed on a stable, level surface and should not be used in damp rooms or extreme temperatures.
- Avoid use near sources of ignition to minimise safety risks.
- Keep ventilation openings clear to allow air circulation and prevent mould.
- Protective measures: Pay attention to sharp edges and small parts to avoid the risk of injury. Prevent children from choking on small parts.
- Use security twist locks and recommended locks correctly, only for the intended applications.
- Regular inspection of the condition of locks, seals and surfaces to prevent corrosion and damage.
- Children should not use the locker as a climbing frame and the locker is not suitable for them without supervision.
- Avoid cleaning agents and chemical substances that could damage the surface. Only use mild cleaning agents.
- Transport with care to avoid damage to the plastic glides and base. Remove plastic packaging before use.
- All safety information and instructions must be made permanently and legibly available.
- Public use: Inform users about proper use and hazards.
