Safety Instructions:

- Make sure that the doors do not jam or cause other injuries when opening.
- Ensure that the cabinet is correctly installed and stands on a stable base to prevent it from tipping over.
- Use the safety locks provided and keep the keys out of the reach of unauthorised persons.
- Regularly check the functionality and security of the locks and mechanisms.
- Avoid placing heavy objects on the shelves to prevent structural damage and overloading.
- Sharp edges or corners pose a risk of injury; handle them with care during transport and installation.
- Only use the product in accordance with the intended instructions and only for the intended purpose.
- Make sure that the locker is stable and not overloaded to prevent it from tipping over.
- Small parts such as locks should be kept away from children to avoid the risk of choking.
- Carry out regular inspections for rust, external damage and correct functionality to ensure long-term safety.
- Do not block the ventilation openings to prevent odours and mould from forming.
- Keep the locker dry and away from heat sources to prevent corrosion.
- Children should only use the locker under adult supervision to avoid injury.
- Only use cylinder locks with the appropriate keys to prevent damage.
- Ensure that the doors close correctly to prevent accidental opening and injury.
- The doors are not suitable for sitting on; avoid climbing on the doors.
- Avoid contact with water on the locks to prevent corrosion.
- Security precautions to prevent unauthorised access to personal items and recommendations for the safe handling of locks and keys.
