Safety Instructions:

- Choking hazard due to small parts, especially for children. The product is not suitable for children under 3 years of age and must be kept out of the reach of children.
- Risk of injury due to improper use of the door mechanisms. Lock doors securely and keep an eye on closing procedures.
- Risk of falling and slipping due to insufficient stability on uneven floors or when overloaded. Ensure stability with adjustable floor glides and compliance with the maximum load.
- Risk of ignition on contact with naked flames or extreme temperatures. Keep product away from heat sources.
- Risk of corrosion if installed near water. Keep the cabinet away from moisture.
- Only use the product in accordance with the intended application instructions and protect it from improper use.
- Use the door dampers to prevent injuries caused by sudden closing.
- Use the security twist locks or cylinder locks to secure the compartments in accordance with the instructions.
- Carry out regular inspections for damage and defects to ensure safety. Contact the manufacturer in the event of damage.
- Product not suitable for the storage of flammable or hazardous substances.
- Not suitable as a toy. Warn against small parts and sharp edges in case of improper use.
- When adjusting the floor glides, ensure that the locker remains stable and use suitable cleaning agents to avoid damaging surfaces.
- Follow the installation instructions and carry out the installation correctly.
- Prevent overloading to ensure stability and regularly check the function of the locking mechanisms.
- Pay attention to balance when sitting on the bench to avoid falling.
- Keep the product away from direct sunlight to avoid material damage.
