Safety Instructions:

- Follow the manufacturer's instructions for assembling and using the shelves. Appropriate tools are required; follow instructions to avoid structural damage and injury.
- The products are not suitable for children under 3 years of age, as small parts may be present. Keep children away from the product in general.
- The load limits of the shelves must not be exceeded in order to avoid the risk of injury or damage. Not suitable for storing excessively heavy objects.
- Make sure that the cabinet is stable and that the product is securely fastened to prevent it from tipping or falling over.
- Please note that sharp edges may be present; take care when handling. Protect the product from sharp edges.
