Safety Instructions:

- Only use the shelves in the version intended for sliding-door wardrobes or roller shutter wardrobes to ensure proper fit and functionality.
- Ensure that installation is carried out in accordance with the enclosed instructions and that appropriate safety precautions are taken to avoid injury.
- Avoid overloading or overloading the shelves to prevent stability problems and possible damage.
- To avoid corrosion, do not store or use the shelves in damp environments.
- Keep small parts and the shelves themselves away from children to prevent the risk of injury and choking accidents.
- When selecting the shelves, ensure that they are compatible with the cabinet dimensions in order to avoid possible risks.
- Ensure safe handling and use of the shelves in accordance with the manufacturer's instructions.
