Safety Instructions:

- Risk of suffocation due to improper use by children.
- Risk of injury due to incorrect height adjustment. Before use, ensure that the stool is correctly adjusted to the desired height to prevent falls or injuries.
- Do not exceed the maximum weight of 130 kg. Exceeding this load limit can lead to structural damage.
- Prevent the risk of slipping on smooth floors. The stool should be used on stable and level surfaces to prevent it from tipping or slipping.
- Take care when using in offices with movable furniture.
- The height adjustment loop should not be overstressed in order to avoid damage and malfunctions.
- If the stool slips or wobbles during use, stop using it immediately and have it checked.
