Safety Instructions:

- Only use for monitors with a maximum weight of 7 kg.
- Make sure that the table top has a thickness of 10-50 mm.
- Check that the bracket is mounted in accordance with the VESA 75/100 mm standards.
- Mount the monitor arm so that it is stable and secure to avoid the risk of falling.
- Make sure that the swivelling and tilting mechanism is working properly.
- Observe the deadlines for any installation instructions or safety instructions.
- Ensure that all moving parts are lubricated and in good condition to prevent injury from crushing.
- Check the monitor arm regularly for damage and wear to minimise safety risks.
- Avoid loading the monitor arm with a weight of more than 7 kg to prevent the risk of breakage.
- Avoid risk of suffocation due to improper assembly or use.
- Note that the gas strut heats up under excessive load.
- Do not exceed the maximum load (7 kg).
- Provide product information and safety instructions in understandable language.
