Safety Instructions:

- Ensure that the table mount is securely fastened to prevent it from wobbling or tipping over. Screws and fastenings must be firmly tightened. If you are unsure, contact a specialist.
- Make sure that the maximum load capacity of 2 x 7 kg is not exceeded in order to avoid damage or accidents.
- Keep children away from the installation and fitting area to avoid injury. Keep out of the reach of children to avoid the risk of suffocation.
- Avoid excessive pulling forces and excessive swivelling or tilting of the monitor arms to prevent damage to mechanical parts and to minimise the risk of injury.
- Read the complete assembly instructions and safety information before installation. Use suitable tools and secure the structure in accordance with the instructions.
- Only mount on stable surfaces to prevent tipping over. Ensure that the table surface is stable and suitable to support the weight of the monitors.
- When installing and adjusting the monitors, ensure that there is no risk of crushing.
- Follow the instructions for using the quick-release function to avoid unintentional loosening.
- The devices are only suitable for screens up to 27 inches; do not use the product with heavier or larger monitors.
- Protect the cables from damage to avoid electrical hazards.
