Safety Instructions:

- Gloves must be worn when using the emergency kit to avoid skin contact with hazardous liquids.
- The set contains materials that can be classified as hazardous depending on the type of liquid aspirated.
- Read the instructions carefully before use to understand possible risks and correct use.
- Ensure disposal of collected liquids in accordance with local regulations for hazardous waste.
- The roll container should not be overloaded; the maximum capacity of 200 litres must not be exceeded.
- Ensure that the set is stored in a dry, safe place to prevent damage and accidents.
- Do not bring into contact with chemical substances that could react with the materials in the set.
