Article Numbers: 170555, 170554, 170553

Safety Instructions:

- Store the USB stick safely to avoid excess physical force, damp places and extreme temperatures, which can lead to damage and data loss. Operating temperature: 0 °C to 35 °C, storage temperature: -10 °C to 70 °C.
- Activate and carefully configure password protection to prevent unauthorised access and data loss. Keep password information secure.
- Carry out regular backups of the data to avoid data loss.
- Avoid storing more data than the maximum capacity of 32 GB so as not to overload the USB stick.
