Safety Instructions:

- Make sure that the drawer cabinet is placed on a stable, level surface to prevent it from tipping over.
- Only open the drawers individually and do not overload them to prevent tipping. Observe the maximum load capacity (75 kg or 200 kg).
- Use the brakes on the castors to ensure the stability of the cabinet during use.
- Only pull out the drawers on a stable surface to prevent them from tipping over.
- Keep small children away from the product to prevent possible injury.
- Do not overload the cabinet or drawers beyond 75 kg or 200 kg.
- Lock drawers when not in use to prevent unintentional opening.
- Regularly check swivel castors and brakes for proper functioning.
- Do not use the drawer cabinet on uneven surfaces to prevent it from tipping over.
- Do not place heavy objects on the head shelf to prevent it from tipping over.
- Read and observe the user manual before use.
- Follow the instructions when mounting on table tops.
- Children should not play with the cupboard or climb on it.
- Do not pull cabinets when they are loaded to prevent them from tipping over.
- Avoid improper use to minimise the risk of damage.
