Safety Instructions:

- Ensure that the drawer cabinet is placed on a stable and level surface to prevent it from wobbling and tipping over.
- Use the lockable castors to secure the cabinet if necessary and prevent it from rolling accidentally.
- Make sure that drawers are not in the way when closing and close all drawers before moving them.
- Observe the maximum load capacity: 75 kg per drawer or 200 kg in total, depending on the version, to avoid the risk of overloading.
- Secure drawers individually to prevent unauthorised access.
- Store small parts safely to avoid injury and the risk of choking.
- Avoid using liquids near the cabinet to minimise the risk of slipping or tripping.
- Follow the safety instructions for installation in the instructions supplied to ensure safe use.
- When moving the cabinet on castors, ensure that there are no people or obstacles in the way.
- Avoid storing the cabinet near water or moisture to prevent rusting.
- Always close the drawers completely to prevent them from slipping out during transport.
- Use by children is not recommended; ensure that children do not play with the cabinet alone.
