Safety Instructions:

- Do not exceed the maximum load of 200 kg.
- Backrest with lumbar support to support the lumbar vertebrae.
- Height-adjustable headrest to relieve strain when sitting for long periods.
- Moulded seat with rounded front edge to prevent circulatory problems.
- Safety lift for stepless height adjustment of the chair, ensure that the safety lift functions correctly.
- Individual seat depth adjustment and synchronised mechanism for adapting to different body weights and movements.
- Armrests with soft PU arm pads to reduce neck and shoulder tension, ensure that the armrests are correctly adjusted.
- Observe the recommended maximum sitting time of 8 hours to prevent health problems and back problems.
- TÜV SÜD certified for ergonomics.
- Swivelling and height-adjustable armrests for optimum adjustment.
- Adjust the backrest and seat correctly, especially for taller people, to ensure optimum support.
- Do not use the product at unhealthy angles to avoid tension.
- Avoid use on unstable surfaces to prevent injuries.
- Regularly check the chair for possible damage or wear and tear.
