Safety Instructions:

- Height-adjustable backrest and seat for optimum adjustment to the user's height.
- Maximum load capacity of up to 200 kg; observe the load limit to avoid overloading hazards.
- Synchronised mechanism to support an ergonomic sitting posture.
- Seat tilt adjustment to prevent tension.
- Armrests adjustable in height, width, depth and tilt for customised comfort.
- Double castors suitable for all floor types; ensure that the chair is not damaged.
- Recommended sitting time of 8 hours - take breaks to avoid back pain.
- Ergonomic and breathable foam padding; regular checks for wear and tear.
- Avoid risk of suffocation due to improper use of the armrests or adjustment mechanisms.
- Risk of slipping due to insufficient stability if incorrectly installed or used.
- Risk of injury from sharp edges on the chair.
- Regular maintenance of the mechanisms is recommended to ensure durability and safety.
- Improper use may result in a risk of injury or damage to the equipment.
- Place the chair on a stable, level surface to avoid tipping and the risk of falling.
- Avoid overloading the armrests to prevent damage or injury.
- Operation and use in accordance with the user instructions provided.
- Keep out of the reach of children to prevent improper use.
