Article Numbers: 141849, 141848, 141847, 141846

Safety Instructions:

- Regularly check the chair's adjustment mechanisms and safety features for proper functionality and stability, especially before using the chair for the first time.
- Avoid loading the product beyond the recommended maximum load of 110 kg, as this can lead to damage and injury.
- Make sure that all adjustment elements are fully engaged before you sit on the chair.
- Ensure that the chair is placed on a stable and level surface to prevent it from tipping over.
- Only use the armrests to relieve pressure on your arms and ensure that they are set to the correct height to avoid tension.
- Avoid moving the castors over uneven surfaces or carpets with long fibres, as this can impair mobility.
- The double safety castors are suitable for carpeted floors. Do not use the chair on uneven or smooth floors without suitable castors.
- The height adjustment of the chair should be set correctly to avoid back pain and proper leg posture.
- Ensure that the armrests and backrest are correctly adjusted to ensure an ergonomic sitting position.
- The office chair is not suitable for children.
- The recommended maximum sitting time is 8 hours; frequent breaks are advisable to promote blood circulation.
- Include operating instructions on the adjustment options of the chair to promote correct use.
