Article Numbers: 655878, 655877, 655876, 655875

Safety Instructions:

- Do not expose the Thermobox to extreme temperatures to avoid material damage and avoid direct sunlight to prevent overheating.
- Do not use sharp objects to prevent damage to the box.
- Protect the Thermobox from chemical substances and solvents to prevent material changes.
- Store the box in a childproof place as it is not suitable for children under 3 years of age and there is a risk of unintentional access.
- Only use the box within the temperature limits of -40°C to +120°C, as higher or lower temperatures could impair the material integrity.
- Comply with HACCP standards when used in cold chains.
- Ensure that the lid is tightly closed before use.
- Not suitable for the storage of foodstuffs to be consumed immediately, unless the necessary hygiene requirements are observed.
- Before use, check for damage that could impair safety.
- Do not place the box in the oven or microwave.
