Safety Instructions:

- Ensure that the lean-to parker is stable to prevent it from tipping over. Regularly check the security of the fastening screws and the surface.
- Use the integrated steel round eyelet to secure bicycles against theft. Activate the anti-theft device after parking.
- The lean-to parker is suitable for tyres up to 55 mm wide. Wider tyres can impair balance and safety.
- Follow the supplied installation instructions carefully and only use the screws included in the package to ensure safe and error-free installation.
- Keep children away during use and do not use the product as play equipment. It is not suitable for children under 3 years of age.
- Remove sharp edges or splinters to avoid injury.
- Regularly check all screws and connections for tightness.
- The product is not suitable for use in road traffic.
- Clean the lean-to parker regularly to minimise deposits and the risk of slipping.
- Ensure that the bike is secured with the leaning bracket. Avoid oversized bicycles that exceed the dimensions.
- Ensure that the lean-to parker is mounted on a stable surface. In extreme weather conditions, check the stability regularly.
- Only use the product for its intended purpose and observe the technical specifications.
- Check the product for damage before use.
