Safety Instructions:

- Observe the safety instructions before installation.
- Avoid assembling the product with damaged parts.
- Use exclusively for the intended purpose: parking bicycles, mountain bikes and e-bikes on level surfaces.
- Maximum load of the leaning bracket: 100 kg.
- Secure and proper anchoring in the ground is necessary to prevent tipping and ensure safety.
- Installation should only be carried out by experienced persons or in accordance with the enclosed installation instructions.
- Use suitable tools and wear suitable protective equipment during installation.
- Ensure proper anti-theft protection by attaching the bicycles to the steel round eyelets with a suitable lock.
- Children must be supervised during use in public areas, as the product is not designed for use by children.
- Regularly check the stability and condition of the leaning bracket for damage or rust.
- In the event of visible damage or signs of wear, stop using immediately and contact the manufacturer.
- Warning of risk of injury due to improper installation or use.
- Make sure that the leaning bracket is firmly anchored in the concrete to avoid the risk of it wobbling or falling over.
- Product may have sharp edges - handle with care.
