Safety Instructions:

- The cabinet must be firmly anchored to prevent it from tipping over. Use the anchoring materials included in the scope of delivery.
- The product is not suitable for use by children and should be kept out of the reach of children.
- Be careful when opening the door, as sharp edges can cause injuries. Pay attention to your surroundings and make sure that there are no people in the area of the cabinet door.
- Only use the keys provided for the security lock and store them securely, separate from the cabinet, to prevent unauthorised access.
- The door should be secured with the security lock provided to prevent unauthorised access and damage.
- Regular maintenance and inspection of the lock and the mechanical parts are necessary to ensure proper functioning.
- There is a choking hazard for small children due to small parts; keep the cupboard and its contents away.
- Do not overload; observe the maximum load capacity of the shelves.
- Only use the product in accordance with the manufacturer's instructions for the safe storage of valuables and not as a piece of furniture.
- Make sure to store the cabinet in a dry place to prevent rust from forming.
- Caution: The emergency lock should only be used by trained persons in accordance with the operating instructions.
- Regular checks of the safety features of the cabinet are recommended to ensure proper function.
- The manufacturer should be contacted immediately in the event of damage or malfunctions.
