Article Numbers: 189849, 189848, 189847

Safety Instructions:

- The film is not suitable for direct contact with food.
- The product may only be used for its intended purpose at room temperature and in accordance with the manufacturer's instructions.
- Use appropriate protective equipment when working with the film to avoid skin irritation.
- Keep the film away from children to prevent possible choking hazards from packaging material.
- Avoid contact of the adhesive surface with damp surfaces to ensure adhesion. Use suitable application on dry and clean surfaces.
- Smaller parts could come loose and are not suitable for children under 3 years of age.
- Use only in well ventilated areas.
- Adhesion may be impaired if used improperly.
- Do not use the film for heating or high temperature applications.
- The adhesive film should be used in accordance with the manufacturer's instructions.
- Contact with the skin may cause allergic reactions. Test on a small area before use.
- Store the adhesive film in a cool, dry environment to ensure its shelf life.
- Dispose of the packaging safely after use to avoid environmental damage.
