Article Numbers: 189854, 189853, 189852

Safety Instructions:

- Not suitable for contact with food.
- Small parts can be swallowed by children and should therefore not be left unattended or out of the reach of children.
- Could pose a choking hazard if used improperly.
- Do not use near heat sources or open flames to prevent damage to the film.
- Avoid direct contact with sharp objects to prevent cracks or breakages.
- High temperatures may occur when used with laser printers; use according to the manufacturer's instructions.
- Suitable for outdoor use, but protect from extreme weather conditions to extend the service life.
- Contains no parts that can be swallowed, but supervision is recommended when using with children.
- The product is waterproof, but be aware of the risk of slipping in wet conditions.
- Ensure that the use of the film complies with printer machines and manufacturer recommendations.
- Keep away from heat and direct sunlight to avoid discolouration.
- If used improperly, the films may come loose or peel off.
