Please note the technical data of the products!

Article Numbers: 189862, 189861, 189860

Safety Instructions:

- Not suitable for children under 3 years of age, as it may contain small parts that pose a choking hazard.
- Can cause damage to health if used incorrectly, as the film can tear or be damaged.
- Avoid contact with direct heat sources or open flames, as it can be a fire hazard and sensitive to heat.
- Not suitable for direct contact with food. Ensure that the product does not come into contact with food.
- Keep out of the reach of children.
- Use in environments with aggressive chemicals can impair the product properties.
- When using in conjunction with printers or copiers, observe the operating instructions.
- Heat-resistant materials could fail at extremely high temperatures.
