**E-Mail:** info@rs-guidesystems.de

Please note the technical data of the products!

**Article Numbers:** 195850, 195849, 195848, 195847, 195846

### **Safety Instructions:**

- Do not leave the belt hanging loose and keep the area around the belt post free of obstacles to avoid the risk of tripping.
- Regularly check that the centrifugal brake on the belt cassette is working properly and always use it to prevent the belt from being pulled in uncontrollably.
- The belt should not be stretched excessively; do not exceed the maximum belt length and do not pull over sharp edges to avoid damage.
- Keep the harness post out of the reach of children to avoid the risk of suffocation from the webbing; do not use as a toy.
- Ensure that the belt posts are stable and securely anchored in the base plate and check their stability regularly to prevent them from tipping over.
- To avoid collisions, do not install the product in areas with heavy traffic or where visibility is obstructed.
- Only use the product for its intended purpose to prevent improper use and possible damage.
- Check the product for stability and integrity before use.
