Safety Instructions:

- Take care when handling hazardous substances. Protective clothing must be worn.
- Protect the container from direct sunlight and store in a well-ventilated place.
- Ensure that the container is securely closed before transport.
- Dispose of hazardous substances and the container in accordance with local regulations and for hazardous waste.
- Check the container regularly for leaks and visible damage; if there is any damage, do not use the container and report it immediately.
- Carry out maintenance and regular inspection of the container for damage.
- Stow the drive-in pockets and crane eyes safely to avoid the risk of injury.
- Do not overload the cover with spring relief to prevent malfunctions.
- Observe safety information and instructions before use.
- Highly hazardous substances may only be stored in the special waste container provided for this purpose.
- In the event of a leak, immediately take suitable measures to contain and eliminate it.
- The container may only be handled by trained personnel.
